

# TECHNOLOGICAL ADITIONAL QUALITY NONWOVENS

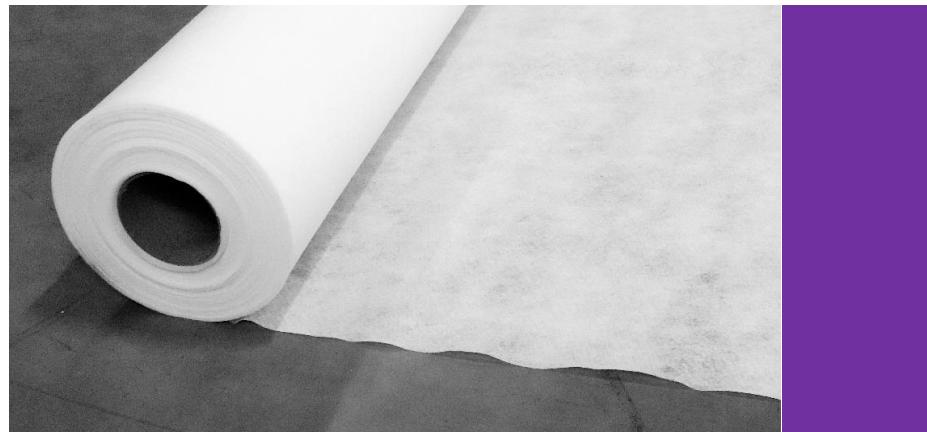

SINCE  
**1950**

**NONWEX AG 50**

Nonwoven needlepunched textile

STANDARD 100 PG035 217550 OETI

**Characteristic:** Nonwoven needlepunched textile with antibacterial effect

**Material content:** 50 % polypropylen staple fibres

50 % polypropylen staple fibers containing silver

**Color:** White

**Weight:** 150 g/m<sup>2</sup>

**Standard width:** from 2 to 6 m (exact width according to customer's request)

**Standard lenght:** 200 m

**Regular use:** For general use with antibacterial effect

**Properties:**

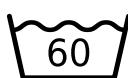

ANTIBACTERIAL

CONTAINS SILVER

**Textile maintanance:**

## NONWEX AG 50

Nonwoven needlepunched textile

NONWEX AG50		150	
<b>PHYSICAL PROPERTIES</b>			
Weight [ $\pm 10\%$ ] / EN 29073-1		g/m <sup>2</sup>	
Thickness 2 kPa [ $\pm 15\%$ ] / DIN 53855-3		mm	
<b>MECHANICAL PROPERTIES</b>			
Tensile strenght [min] / EN 29073-3	MD CMD	N/5cm	350 500
Elongation [ $\pm 20\%$ ] / EN 29073-3	MD CMD	%	95 95
Static elongation / PV 3909	MD CMD	%	35 30
Tear strength [min] / NES M 0076/13	MD CMD	N	50 50
<b>ANTIBACTERIAL EFFICACY*</b>			
Antimicrobial Activity / ASTM E 2149-13a Bacteria: escherichia coli CCM 3954	Sample	NONWEX AG50	Inoculum
	1h [CFU/ml]	$9,85 \times 10^3$	$2,29 \times 10^5$
	Reduction [%]	95,70**	-
<b>INSTRUCTION FOR USE</b>			
Washing temperature [max]		°C	
Washing cycles [max]		No	
Ironing		No	
Warnig		DO NOT USE THE MATERIAL IN CASE OF DAMAGE	
<b>DIMENSION, PACKAGING AND STORAGE</b>			
Packaging		Rolls are packed in PE foil, and wind up on paper tubes	
Storage		In covered, clean and dry spaces	

The above technical parameters are average values and serve for general information. The manufacturer reserves the right to change it.

\* The following parameters were tested at VÚTCH-CHEMITEK, Žilina in accredited testing laboratory of antimicrobial activity.
